Paul,

As we discussed previously, the staff in FA and HR will include any information ERFSA supplies with prospective retirees. They will also keep a list of the names and university email addresses of declared faculty/staff retirees. I will share that with you semi-annually so that you can communicate with them about ERFSA. We cannot give out personal contact information for current or former employees, but we can send you university email addresses for those retirees that have them (i.e., emeritus faculty/staff).

Regarding identification, I'm not sure under what circumstances individuals would need to verify their identity while on campus. However, campus identification cards are available to students, faculty and staff employees, and emeritus faculty/staff.

Happy to be the campus liaison with ERFSA and I look forward to seeing you and the group in June.

T
